"Gets it all in: the boozing and drugging...but also the intelligence, the loyalty, the inherent decency." —Jonathan Yardley, Washington Post Hunter S. Thompson detonated a two-ton bomb under the staid field of journalism with his magazine pieces and revelatory Fear and Loathing in Las Vegas. In Outlaw Journalist, the famous inventor of Gonzo journalism is portrayed as never before. Through in-depth interviews with Thompson `s associates, William McKeen gets behind the drinking and the drugs to show the man and the writer—one who was happy to be considered an outlaw and for whom the calling of journalism was life.

Never before has a book been compiled on cannabis brands and the consumers they appeal to. Once an underground commodity, with legalization in more and more states and countries, cannabis is now marketed under a variety of national brands, each with its own unique approach to targeting consumers. The global legal cannabis market was valued at US\$17.7 billion in 2019 and is expected to reach US\$73.6 billion in 2027. Celebrities, athletes, politicians, and large corporations alike are investing and competing in this fast-paced industry. But what makes a cannabis brand successful? What techniques do companies use to brand and market their products? What segments have been established? In Branding Bud: The Commercialization of Cannabis, David Paleschuck answers these questions, digging deep into this evolving industry to uncover what both small companies and large corporations are doing to introduce their products to the hearts and minds of cannabis consumers. The results of his exploration may surprise you. Branding Bud showcases the exciting range of products that cannabis consumers will be able to buy in a local dispensary once legalization comes to their state. The book offers a comprehensive overview and contextualization of this new segment, examining the multitude of emerging brands, their creative assets, and the strategies behind them, and the political, legal, and cultural aspects of cannabis that inform the brand landscape of today. This book is a must-read for entrepreneurs, investors, marketers, designers, and anyone interested in the rapidly growing cannabis industry. -- David Paleschuck

When she was nine, Megan Meade met a group of terrible, mean, Popsicle-goo-covered boys, the sons of her father's friend -- the McGowan boys. Now, seven years later, Megan's army doctor parents are shipping off to Korea and Megan is being sent to live with the little monsters, who are older now and quite different than she remembered them. Living in a house with seven boys will give Megan, who has never even been kissed, the perfect opportunity to learn everything there is to know about boys. And she'll send all her notes to her best friend, Tracy, in... Megan Meade's Guide to the McGowan Boys Observation #1: Being an army brat sucks. Except that this is definitely a better alternative to moving to Korea. Observation #2: Forget evil, laughing, little monsters. These guys have been touched by the Abercrombie gods. They are a blur of toned, suntanned perfection. Observation #3: I need a lock on my door. STAT. Observation #4: Three words: six-pack abs. Observation #5: Do not even get me started on the state of the bathroom. I'm thinking of calling in a hazmat team. Seriously. Observation #6: These boys know how to make enemies. Big time. Megan Meade will have to juggle a new school, a new family, a new crush -- on the boy next door, as in next bedroom door -- and a new life. Will she survive the McGowan boys?

Michael Grant's Messenger of Fear is a haunting narrative that examines the nature of good and evil in every human. Fans of Michelle Hodkin's Mara Dyer trilogy and Stephen King will love this satisfyingly twisted series. Mara Todd wakes in a field of dead grass, a heavy mist pressing down on her. She is terrified, afraid that she is dead. She can't remember who she is or anything about her past. Is it because of the boy who appears? He calls himself the Messenger of Fear. If the world does not bring justice to those who do evil, the Messenger will. He offers the wicked a game. If they win, they go free. If they lose, they will live their greatest fear. Either way, their sanity will be challenged. It is a world of fair but harsh justice. Of retribution and redemption. And mystery. Why was Mara chosen to be the Messenger's apprentice? What has she done to deserve this terrible fate? She won't find out until three of the wicked receive justice. And when she does, she will be shattered.
